It's been an honor to serve you

We've been through a lot.

From the beginning, it's been an honor to serve you right from the heart of Keystone Heights — the place I grew up.

After high school, there weren't many local opportunities, but I was fortunate that Clay Electric was here. I spent four years as a lineworker, climbing poles. There were storms. It was hot. I learned what hard work really was, and those early years taught me lessons that have stayed with me throughout my entire career.

Eventually, I went back to school, graduating from the University of Florida with a degree in engineering. I was blessed to return to Clay Electric as an engineer before becoming a district manager. I'd go on to the role of director of Operations, and down the road, I was selected to serve as the fifth CEO of the co-op.

Altogether, that's 46 years — including nearly 17 as your general manager — serving a place and a purpose I've been proud to call my own.

With my time at Clay Electric coming to a close, I look back on the challenges we've faced — from rebuilding after major storms like hurricanes Irma and Helene, to steering through the uncertainty of the COVID-19 pandemic, to implementing new technology such as advanced metering and GIS mapping that modernized how we operate. I've been lucky to work with a great Board of Trustees who are supportive, steady and focused on doing what's right for our members.

On that note, thank you to our members for your support, your understanding during tough

times and your pride in this cooperative. You are the reason we exist, and I'll always be grateful for the trust you placed in me.

Thank you to my executive staff, a talented, smart group of individuals who are dedicated to getting things done. They've never let me down. A special thanks to my administrative assistant, Lorrie, who filled in the gaps and kept me organized for years.

To all the nearly 500 Clay Electric employees — many of whom are called out at a moment's notice to restore power — thank you. You're the ones who keep the wheels turning and make the co-op what it is. The success of Clay Electric isn't about me, it's about each of you.

I've learned you can't make everyone happy, but if you're consistent and honest, people will respect you. I believe a steady, balanced approach is what has kept our cooperative strong.

I'd like to extend a well-deserved congratulations to my colleague, Andy Chaff, a 34-year employee who I'm proud to say has been selected by the Board of Trustees to serve as Clay Electric's sixth general manager and CEO. I'm confident that with his experience and your support the co-op's success will continue indefinitely.

I'm proud to say I've spent my career with the co-op that gave me my first opportunity. Clay Electric will always hold a special place in my heart. I wish each of you a joyful holiday season with your loved ones.

Here's to what's next.

Andy Chaff named co-op's 6th GM/CEO

Andy Chaff will take command of the co-op in January.

The Board of Trustees has selected Andy Chaff to lead Clay Electric as the co-op's sixth general manager and CEO.

"I want to thank the Board of Trustees for their commitment to doing what's right for our members and employees, and I want to thank them for their vote of confidence. I'm deeply honored to serve as your next CEO," Chaff said in a prepared statement. "Clay Electric has a proud history, one built on hard work, integrity and teamwork. I want to honor that legacy while continuing to build on it."

Chaff brings 34 years of experience with Clay Electric, where he started in Sept. 1991 as an engineering technician. His career steadily advanced, serving as a field engineer, district engineer and district line supervisor. He's served as district manager of the Orange Park District Office since 2009, overseeing service reliability and member operations across the co-op's largest district.

Chaff expressed his gratitude for Ricky Davis' leadership and mentorship, saying, "Ricky has been an incredible example of dedication and steady leadership. I'm grateful for the foundation he's built and the trust he's placed in me to continue that work."

Chaff will assume his new role in January.

Your Round Up pennies provided 2,500 meals for children

Feeding Northeast Florida's new facility in Jacksonville has allowed the nonprofit to quadruple the number of volunteer groups it can host at one time.

Feeding Northeast Florida is one of 101 organizations to benefit this year from Clay Electric's Operation Round Up program, funded entirely from generous donations made by co-op members.

This year, \$10,000 in Round Up funds were donated to the organization, specifically benefiting the nonprofit's services in Putnam County. The co-op presented the check at Feeding Northeast Florida's headquarters in Jacksonville, which recently completed a \$25 million renovation.

Once a 1950s window factory, the building now hums with activity, able to quadruple the number of volunteer groups that come in compared to its previous

facility.

"That means we're able to accept larger loads of food donations and get more food out to the community in need," said Kelly Brenner, director of grants.

The co-op's contribution funded 2,500 "snack packs" for children in Putnam County. Each pack is designed to bridge the gap for kids who rely on free or reduced-price lunches at school during the week. On Fridays, they receive a bag with the equivalent of two meals — shelf-stable, ready-to-eat foods such as a protein, fruit, salty snack and another treat — all easy enough for a child to open on their own.

Feeding Northeast Florida is the region's largest food bank, serving 12 counties across

Jackie Culver, vice president of philanthropy, gave a tour of the facility to Clay Electric leadership.

the area. By working with a network of local partners — from food pantries and churches to schools and community centers — the nonprofit helps ensure that nutritious food reaches families.

For the year, more than \$900,000 in grants was made possible by Operation Round Up since January. An overwhelming 83% of Clay Electric members continue to provide donations by voluntarily electing to round up their monthly billing statements to the nearest dollar amount.

As of the end of the year, **\$8.23 million** in grants had been made to **365 local organizations**. You can see photos from all the check presentations monthly on **Facebook** at **Clay Electric Co-op**.

Lake Area Ministries received a \$20K grant check.

The College of Central Florida received \$10K from Operation Round Up.

A \$20K grant check with to Bradford Sheriff Charitable Foundation.

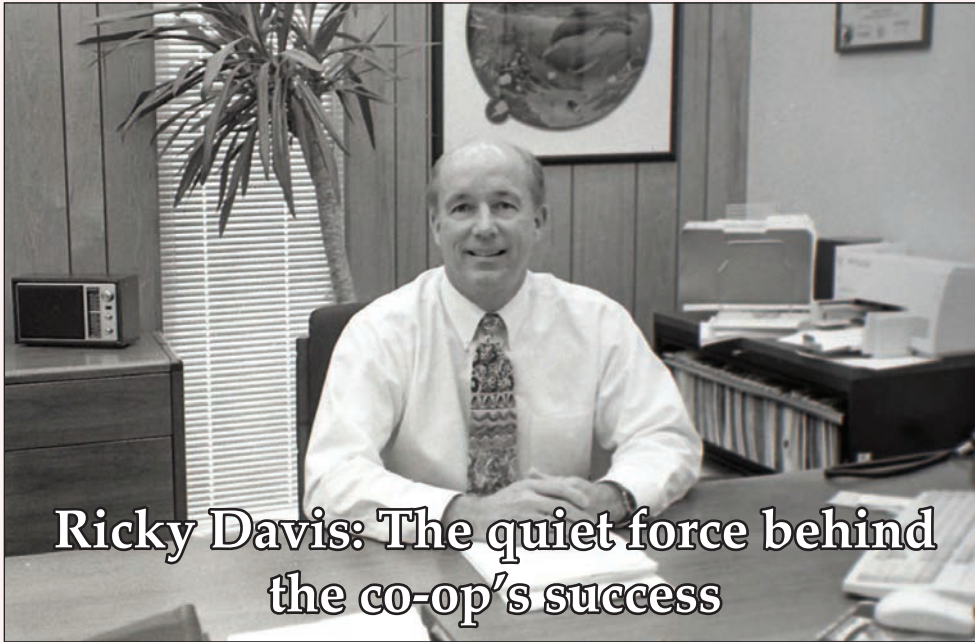

The Clay Electric Foundation Board of Directors approved

\$217,812 IN GRANTS

during its Sept., Oct. & Nov. meetings.

Clay Electric's Board of Trustees and General Manager/CEO Ricky Davis appreciate the members who voluntarily round up their electric bills each month to help improve the quality of life for residents in the counties we serve.

Through Operation Round Up, members are coming together to create change in their communities through a foundation — something they couldn't do individually on this scale.

Ricky Davis: The quiet force behind the co-op's success

In this file photo from 1999, Ricky Davis sits at his desk during his tenure as Orange Park district manager.

In 1973, a young pole inspector joined Clay Electric with a hard hat and a desire to learn everything he could. Forty-six years later, Ricky Davis is retiring as the co-op's general manager and CEO — a title he earned one rung at a time.

Those who worked beside him describe a thoughtful person who never forgot where he started.

"Ricky's kind of a Cool Hand Luke," said Board Trustee Kelley Smith. "He really keeps a cool head about him."

That calm, deliberate manner would become a trademark — a steady hand through growth, storms and decades of change.

Davis graduates from the University of Florida in this 1983 file photo.

After working in the field as a lineworker and later earning his

engineering degree from the University of Florida, Davis returned as an engineer in 1984. He took on leadership roles at the co-op in Operations and district management before taking the helm in 2009.

As CEO, Davis approached decisions like an engineer: methodical, but grounded in people. Under his leadership came a modernization of the co-op, including system-wide global information system (GIS) mapping and the installation of advanced metering infrastructure (AMI), which allows real-time outage reporting and faster restoration. In 2022, the co-op introduced online voting for the Board of Trustees election — a step that brought modern convenience to one of the cooperative's oldest traditions.

"He (Davis) was always very smart about not wanting to be on the bleeding edge, but to get the right technology at the right time, and it providing maximum benefit to the members. And of course, looking out for the members was always a top priority," said Bruce McHollan, retired director of ICT.

Davis led the construction of a new headquarters and district offices — replacing outdated, overcrowded

A crew works to demolish the old Keystone Heights District Office in this 2021 file photo.

buildings with efficient, modern facilities that made daily work safer and member service smoother. Inside those walls, he helped foster a culture of safety by adopting the national Commitment to Zero Contacts initiative, a program that reminds every employee that safety begins with leadership.

In this 2019 file photo, Davis signs the Commitment to Zero Contacts initiative.

Community remained central. In 2016, Davis championed the launch of Operation Round Up, a simple idea in which members voluntarily round up their billing statement. It's delivered extraordinary impact — \$8.23 million in grants to 365 local organizations so far.

The year 2020 tested his leadership in ways no storm ever had. Early reports of COVID-19 in Florida reached the co-op in February 2020. Justin Williams, chief officer of corporate services and human resources, recalled hearing the news on the radio, calling Davis, and by that afternoon a company-wide memo was out.

"We didn't have a playbook. We had never experienced something like this before," Williams said. "Ricky's leadership during that time was critical."

Clay Electric Cooperative, Inc.

He helped reimagine work schedules, meetings and field operations while keeping employees and members safe. Even the Annual Meeting, which was canceled in 2020, went virtual in 2021 — a difficult but necessary decision.

Davis' calm attitude under pressure was nothing new as Mother Nature has been known to bowl a strike here and there on the co-op's distribution system, especially during hurricane season. The year 2024 proved to be a difficult one with three major storms dealing blows, including Helene, one of the worst in recent memory, causing \$13.6 million in damage alone. Shy of a decade prior, Matthew (2016) hit causing \$4.7 million in damage, but perhaps the worst storm was Irma in 2017, which caused approximately \$15 million in damage.

A Clay Electric lineworker treads through torrential floodwaters in Lake City following Hurricane Irma in 2017.

Each time, Davis has been vital to coordinating restoration efforts that brought power back to tens of thousands of members.

"He is always calm and steady," said FECA GM Mike Bjorklund. "The rest of the world could be falling down... but that's not Ricky's way. Ricky continues to always just maintain that unflappable approach."

His focus on storm-hardening and vegetation management had already

reduced outages and earned recognition from then-Florida Gov. Rick Scott after the 2016 season — proof that preparation matters long before a storm makes landfall.

Davis speaks alongside then-Florida Gov. Rick Scott at the Orange Park District Office.

Beyond emergencies, Davis' influence reached deep into Florida's cooperative network. As a longtime Seminole Electric board member, he helped guide the generation and transmission cooperative through a decade of pivotal decisions — from resource-planning and forecasting reforms to Seminole's first utility-scale solar projects and the construction of the Shady Hills combined-cycle plant.

"He's been a very committed board member," said Seminole Electric CEO Lisa Johnson. "Deliberate and thoughtful."

Davis and other industry leaders listen to a speech from Seminole Electric CEO Lisa Johnson in this 2023 file photo.

Inside the organization, he cultivated trust. Colleagues say he hired good people, mentored them and let them do their jobs. His confidence in his team helped departments that once worked separately begin collaborating.

Under his guidance, the co-op has grown to nearly 200,000 meters and, in 2021, earned the J.D. Power Award for highest customer satisfaction among all U.S. electric cooperatives.

"Ricky said to me on more than one occasion that he wanted to leave the co-op in better shape than when he became the CEO," McHollan said. "And now that he's going into retirement, I can say he's absolutely accomplished that many times over."

Those who know him describe him as conscientious, humble and quietly determined — "not a rock star, more of a workhorse," Smith said. "But a very thoughtful workhorse."

"He's interested in giving the opportunities that he had to other people, to other employees at Clay Electric," said Board Trustee Susie Reeves.

After nearly five decades, Davis closes this chapter the same way he began it — grounded, grateful and focused on others. The systems are stronger, and the next generation of leaders is ready.

He leaves behind not just an upgraded grid, but a legacy of steadiness, showing that lasting change is built the same way he built his career: from the ground up.

Past and present Call Center employees stand with the J.D. Power Award in this 2022 file photo.

Notice of District Trustee Meetings

NOTICE IS HEREBY GIVEN that three Trustee District Meetings of the Members of Clay Electric Cooperative, Inc. will be held in the following respective districts:

DISTRICT NO. 2 Kelley Smith — Trustee — **Jan. 5, 2026**, at the Sam Hogg Pavilion, 160 S Electric Ave., Palatka, FL 32177. Registration begins at 5:30 p.m. Meeting begins at 6 p.m.

DISTRICT NO. 4 Carl Malphurs — Trustee — **Jan. 8, 2026**, at the New Oak Grove Baptist Church, 18100 NW 262nd Ave., Alachua, FL 32615. Registration begins at 5:30 p.m. Meeting begins at 6 p.m.

DISTRICT NO. 6 Jimmy Wilson — Trustee — **Jan. 6, 2026**, at the Middleburg Civic Center, 2102 Palmetto Street, Middleburg, FL 32068. Registration begins at 5:30 p.m. Meeting begins at 6 p.m.

Said District Meetings to be held for the purpose of (a) selecting one or two members who reside in such District as Candidates for Trustee to represent the members of such District, and (b) to transact such further business as may properly come before such meetings. The candidates who are selected shall then be voted upon by the members by a process determined by the Board of Trustees, and the results of the election shall be announced on Clay Electric's website on **Friday, Mar. 20, 2026**, and at the Annual Meeting gathering of the members on **Saturday, Mar. 28, 2026**.

For a District Meeting to be legal, at least 15 members of the Cooperative within the respective district must be present. This is one of the few duties requested of you by your membership in the Cooperative. Many members should be present to ensure the selection of qualified candidates for the important position of Trustee. A door prize will be given to a member who has registered for the meeting.

A description of each Trustee District Boundary Line can be found in your Member Handbook. A copy of the handbook can be found on Clay Electric's website at clayelectric.com/communications. You also may contact your district office for a copy.

If you are uncertain which Trustee District you reside in, check your most recent billing statement.

Spiced Cranberry-Orange Bundt Cake

Ingredients

- 2 1/2 cups all-purpose flour
- 2 tsp baking powder
- 1 tsp baking soda
- 1 tsp ground cinnamon
- 1/2 tsp ground nutmeg
- 1/2 tsp ground ginger
- 1/2 tsp salt
- 1 cup unsalted butter, softened
- 1 1/2 cups sugar
- 3 large eggs
- 1 tbsp orange zest
- 1 tsp vanilla extract
- 1 cup sour cream
- 1 1/2 cups fresh cranberries (tossed in a little flour to prevent sinking)

Glaze

- 1 cup powdered sugar
- 2-3 tbsp fresh orange juice

★ *Make it gluten-free*

Swap the flour for a 1:1 gluten-free all-purpose baking blend. Add 2 extra tablespoons of sour cream to keep the cake moist, and start checking for doneness about 5 minutes earlier than the original bake time. Everything else stays the same.

Directions

1. Preheat oven to 350°F. Grease and flour a Bundt pan.
2. Whisk flour, baking powder, baking soda, spices and salt in a bowl.
3. Cream butter and sugar until fluffy. Beat in eggs one at a time, then add orange zest and vanilla.
4. Mix in dry ingredients alternately with sour cream. Fold in cranberries.
5. Pour into pan, bake 50-60 minutes until golden and a toothpick comes out clean.
6. Cool, then drizzle with glaze.

CLAY ELECTRIC BOARD OF TRUSTEES

Meets in the boardroom at the headquarters building in Keystone Heights at 11 a.m. (or shortly thereafter) on Dec. 17 and Jan. 29.
